NEW ON THE BLOCK

Say Yes To Thai!

Tickle your palate with the new online home delivery kitchen that serves fresh and authentic Thai food. Based out of Delhi, ThaiCrate serves delicious Thai delicacies such as Yum Woon Sen (glass noodle salad), Kaeng Massaman Kae (massaman curry lamb) and much more. The packaging is creative and fun – stackable boxes that are really good to look at but equally convenient for reuse. The boxes are amongst the first in their category for a delivery service to be using food grade PP5 material; one can eat directly out of them, which adds to their cosmopolitan appeal, and they can be popped directly into the microwave or freezer. ThaiCrate serves up good food in little time and delivers across Delhi-NCR.

For more info and the menu, check www.thaicrate.in
